Curved Series

Congratulations on your new Kristina Dam Studio design!

The Curved series are sculptural and timeless designs crafted from powder-coated or stainless steel. The sleek lines in the designs complement many spaces, functioning as side tables, a bench or shelving, allowing for storing everyday necessities in the tactile storing boxes (sold separately).

Powder-coated metal and stainless steel are durable and require minimal maintenance. Wipe with a soft cloth wrung in hot water, wiping with a dry cloth immediately after. Only use a mild cleaning agent if needed.

Always wipe powder-coated and stainless steel surfaces with a dry cloth after washing the floors.

Do not use any solvents, chemicals, or cleaning agents with sanding qualities, as these will permanently damage the surface.

For more care and maintenance guidelines, please go to **kristinadamstudio.dk**

Studio

Arches and architecture are the essences of the Kristina Dam Studio's monochrome collections. Founded in 2012 by graphic designer Kristina Dam with the initial design idea for the studio to create industrial designs with an art-based approach, making art and sculptures accessible to everyone.

At Kristina Dam Studio, we call our design approach "Sculptural Minimalism". We define sculptural minimalism by merging the artist's meticulous attention to detail with the architect's vision and spatial understanding.

The respect for nature's materials is integral to every piece, the passion for diligent craftsmanship is evident in every item, and each design is more than just interior objects.

All our products are made from high quality and long-lasting materials. Please follow our care instructions and treat your new item accordingly.

All products are designed in Copenhagen, Denmark.
